GitHub

## Experience

### Seminaut Inc

*Full-Stack Developer Intern*

February 2023 - Present | Remote

- Worked with React.js to create a dynamic and responsive front-end UI
- Improved website functionalities and load times.
- Worked with SQLAlchemy and Auth0 to securely store and retrieve data, ensuring data security and privacy.

### Freelance

*Front-End Developer*

March 2021 - Present | Rocklin, CA | Remote

- Planned website development, converting mockups into usable web presence with HTML, CSS, JavaScript, and React.
- Designed, implemented and monitored web pages for continuous improvement.
- Oversaw technical issues and troubleshooting requests to resolve user problems.

## Projects

### Sous-Chef Helper

- Created using HTML5, CSS3, and JavaScript ES6
- Recipes information gathered from Spoonacular API

### DN Web Solutions

- Built per clients request for their Saas
- UI designed in Figma
